

SCRATCH

Instruments and Rests in your Song

- Sometimes in songs there is silence in music. Find a way to wait for a few seconds before playing the next note or beat.
- Find another way to do it.
- What does this new piece do?

```
set instrument to 1
```

- A student in the past found that this didn't do what they expected it to do.

```
play note 60 for 0.5 beats  
play note 62 for 0.5 beats  
play note 64 for 0.5 beats  
set instrument to 11
```

What do you think they expected it would do?

What does it do?

Try it again! What does it do?

- Challenge! Use the piece “set instrument to...” In your song.
