

# Maze

This is an adaptation of Google CSFirst's project called '[Maze Game](#)'. I have created this with the Scratch scripts in Marathi. You may want to view the original materials to understand the project.

For this handout, I have used [Skye Maze Starter Project](#). You can also use the following starter projects:

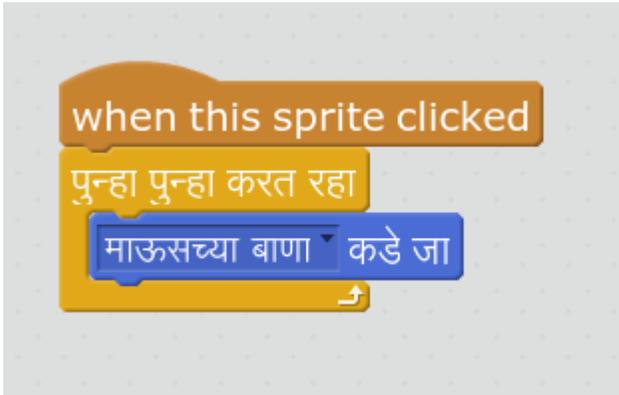

[Skye Maze Starter Project](#)

[Space Maze Starter Project](#)

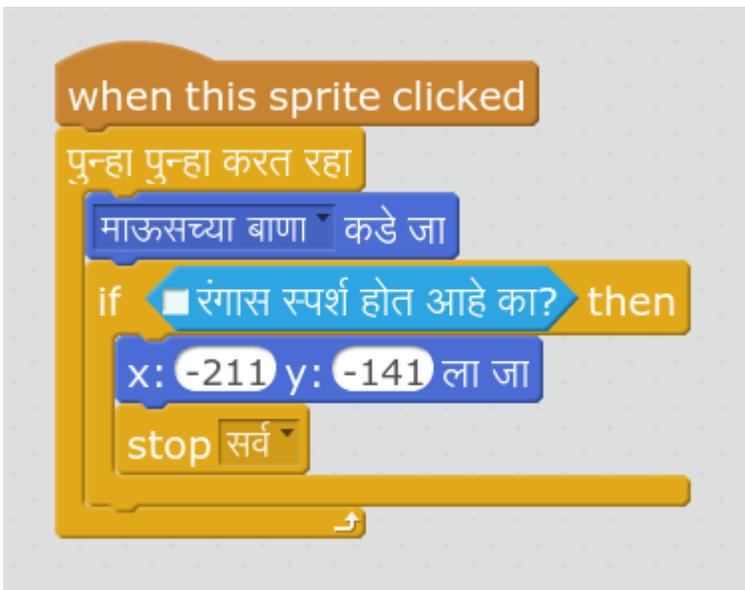

[Forest Maze Starter Project](#)

[Snow Maze Starter Project](#)

## Go to the mouse

## Avoid obstacles

## Reach the goal

**Note:** The script above won't work perfectly. You need to use the block

This may be a good lesson to show how you fix a script. I also think this may be a difficult lesson for beginners, i.e., why you need that block.

### Notice

This project was adapted from [Maze Game project in Google CS First](#).
